Kevin, take a look at Petrobras' recent presentation that may help you understand the new "trend" for platforms to be built in Brazil. Theoretically there is a plan A and plan B, but it seems unlikely that plan A is feasible for all units. Petrobras received a few proposals from local operators with very high prices according to the information to which I had access. If you have any questions I am at your disposal. Hope this is useful. Regards,  
Denis

Kevin, veja recente apresentação da Petrobras que pode ajudar a entender o novo "tender" das plataformas a serem construídas no Brasil. Teoricamente tem plano A e B, porém parece improvável que o plano A seja factível para a totalidade das unidades. A Petrobras recebeu poucas propostas de operadores locais e com preços bastante altos de acordo com informações que eu tive acesso. Qualquer dúvida estou a disposição. Espero que seja útil. Abraço,  
Denis
